Product Care & Maintenance - Western Red Cedar will turn a weathered grey if left unfinished. Although no finish is required for cedar products when used outdoors, a natural oil finish applied regularly will help maintain the beauty and minimize cracking and drying. It is recommended to use Gronomics Garden Bed Oil (Item # GBO-1Q), a non-toxic, food safe finish that is very easy to apply. Apply Oil when air and wind temperatures are between 50-90degrees. Avoid applying indirect sunlight.
