2	1	CS21	Cross Support, 21" x 3"
3	1	CS34	Cross Support, 34" x 3"
4	1	EFTB-16	Expandable Fan Trellis Bracket, 16" x 4-1/2"
5	4	CS8-112ZY	Screw, #8 x 1-1/2" GRK

Product Care & Maintenance

Western Red Cedar will turn a weathered grey if left unfinished. Although no finish is required for cedar when used outdoors, a natural oil finish applied regularly will help maintain the beauty and minimize cracking and drying. It is recommended to use **Gromonics Garden Bed Oil (Item# GBO-1Q)**, a non-toxic, food safe finish that is very easy to apply.

Apply oil when air and wind temperatures are between 50-90 degrees. Avoid applying in direct sunlight.

Continued

2 21" x 3" Cross Support Assembly

Stand the fan trellis (Item 1) upright and place the 21" x 3" cross support (Item 2) at the top of the fan trellis.

Expand the fan trellis (Item 1) posts and align the posts with the cross support holes. Slide the cross support down onto the posts, perpendicular to avoid binding.

3 21" x 3" Cross Support Assembly Continued

Slide the 21" x 3" cross support (Item 2) down, no more than 30".

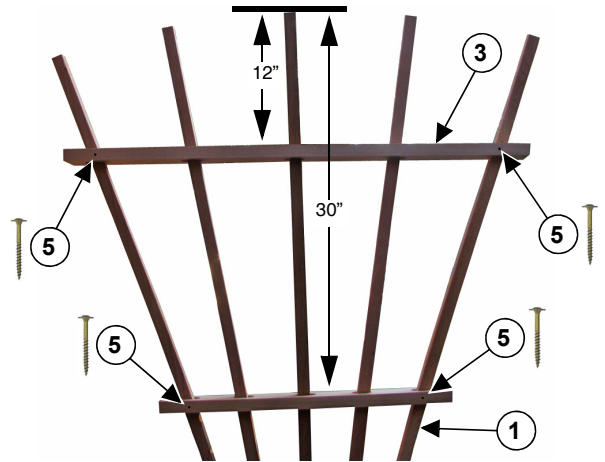

NOTE: It may be easier to gradually work the support down while alternating between this step and step 4.

4 34" x 3" Cross Support Assembly

Expand the fan trellis (Item 1) posts and align the posts with the 34" x 3" cross support (Item 3) holes. Slide the cross support down, until the cross support is 12" from the top.

When both supports are in position, insert a 1-1/2" screw (Item 5) into the pre-drilled holes on each end of the supports.

5 Completed Assembly

Insert the expandable fan trellis bracket (Item 4) into the ground.
