

### 1 Parts Identification

Item #: VGS 33-23

NOTE: The vertical garden stand can be equipped with a self watering system, contact Gronomics at 1-855-299-6727.

NOTE: Ground preparation is optional, however we recommend leveling area under frame of product, or place product directly on a flat level surface before filling with soil.

Torx® T25

If any pieces are missing or replacement parts are required, contact Gronomics at 1-855-299-6727.

### Parts List

ITEM	QTY.	PART #	DESCRIPTION
1	1	VGS3323	Vertical Garden Stand
2	4	RSS10-2ZY	Screw, #10 x 2"

**Product Care & Maintenance** - Western Red Cedar will turn a weathered grey if left unfinished. Although no finish is required for cedar products when used outdoors, a natural oil finish applied regularly will help maintain the beauty and minimize cracking and drying. It is recommended to use **Gronomics Garden Bed Oil (Item # GBO-1Q)**, a non-toxic, food safe finish that is very easy to apply. Apply Oil when air and wind temperatures are between 50-90degrees. Avoid applying in direct sunlight.

## 2 Installing The Vertical Garden Bed

Lower the vertical garden bed into the garden stand (Item 1).

Fasten the vertical garden bed to the garden stand with four **10 x 1-1/2"** screws (Item 2).

## 3 Soil Mix

NOTE: Before adding the soil mix, verify that the vertical garden stand is secure and stable. Verify that all back rails and shelf rails are completely installed.

Slowly place the soil mix into the top of the vertical garden. Add soil mix until it is approximately one inch below the top back and shelf rails.
